

## NOTICE III Variety

### Fall Dorm 4

- **Multi-leaflet alfalfa with high forage yield potential and quality**
- **A great fit for areas with shorter growing conditions**
- **Fast recovery and greenup for more forage production**
- **Strong disease package; Disease Resistance Index score 30 out of 30**

## AGRONOMIC CHARACTERISTICS

Fall Dormancy	4
Recovery Rate	4
Disease Resistance Index	30
Crown Size	Large
Winter Hardiness	2
Stress Tolerance	2
Forage Yield Potential	3
Forage Quality	2
Persistence with Grass	3

## DISEASE RATINGS

Bacterial Wilt	HR
Verticillium Wilt	HR
Fusarium Wilt	HR
Anthracnose	HR
Phytophthora Root Rot	HR
Aphanomyces R1	HR
Spotted Alfalfa Aphid	R
Pea Aphid	R
Blue Alfalfa Aphid	-
Stem Nematode	-
Northern Root Knot Nematode	-
Southern Root Knot Nematode	-

## RATINGS KEY

Field and weather conditions may vary from area to area. The ratings in the charts are to be used as guidelines only. The limitations of warranty and liability on each bag of seed are part of the terms of sale thereof.

**Rating System:** 1 = Excellent, 9 = Poor, - = data is insufficient at this time, NR = Not Recommended

**Disease Rating Index:** 30= Best

**Winter Hardiness:** 1=Noreseman, 2=Vernal, 3=Ranger, 4=Sarac, 5=DuPuits, 6=Lahontan, 7=Mesilla, 8=Moapa 69, 9=CUF101

**Disease Ratings:** HR= Highly Resistant, R= Resistant, MR=Moderate Resistance, LR=Low Resistance, S=Susceptible, NA=No Data Available

**Growers must direct any product produced from HarvXtra® Alfalfa with Roundup Ready® Technology seed or crops (including hay and hay products) only to United States domestic use.** In the following states, use of HarvXtra® Alfalfa with Roundup Ready® Technology is subject to a Seed and Feed Use Agreement, noting that this technology can only be used on farm or otherwise be used in the United States: Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico,

Oregon, Utah, Washington and Wyoming. In addition, due to the unique cropping practices do not plant HarvXtra® Alfalfa with Roundup Ready® Technology in Imperial County, California, pending import approval in China and until Forage Genetics International, LLC (FGI) grants express permission for such planting. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their product purchaser to confirm their buying position for this product.

### **Monsanto Company is a member of Excellence Through**

**Stewardship® (ETS).** Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. This product has been approved for cultivation in the U.S. and Canada, and for import in Australia/New Zealand, Colombia, China, Japan, Korea, Mexico, Taiwan, and Vietnam. The single events in this product have been approved for import in the EU. As of February 2, 2016, E.U. stack approval is in the final stage of approval and is expected but not guaranteed to be received in the near future. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Growers should refer to [www.biotradestatus.com](http://www.biotradestatus.com) for any updated information on import country approvals.

**Individual results may vary**, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.

### **ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.**

Roundup Ready® crops contain genes that confer tolerance to glyphosate. Glyphosate herbicides will kill crops that are not tolerant to glyphosate.
